Grand Total: \$ 191.64

President: Jonathan Porat

Active Members: 20

Purpose: To make positive changes happen for our communities, for animals, and for the environment. To share ideas and inspiration, implement successful community service projects, and participate in special events and global campaigns. To promote awareness about social, political, and economic issues as they relate to environmental issues. To educate the community on ways they can help. To promote students' interests that will lead to the improvement of the lives of animals and people in all environments. To encourage younger students care about the environment. To setup a support network for students that care about animals and the environment.

Activities: In general, they participate in many environmental service projects: tree planting, clean ups, and trying to bring a farmer's market to UF just to name a few. In addition to these projects, they also plan on taking trips to better understand the environment they are trying to save and bring in speakers to better learn about the environment and how our activities impact it.
